Executes for Valorant Comp

BREEZE(A) - JETT, ASTRA, VIPER, SOVA, CYPHER

4.1 Attack Side

Basic Rules - Base Conditions:

Figure 1: Viper Wall Mid on all rounds without any changes for rifle rounds only, until asked to change

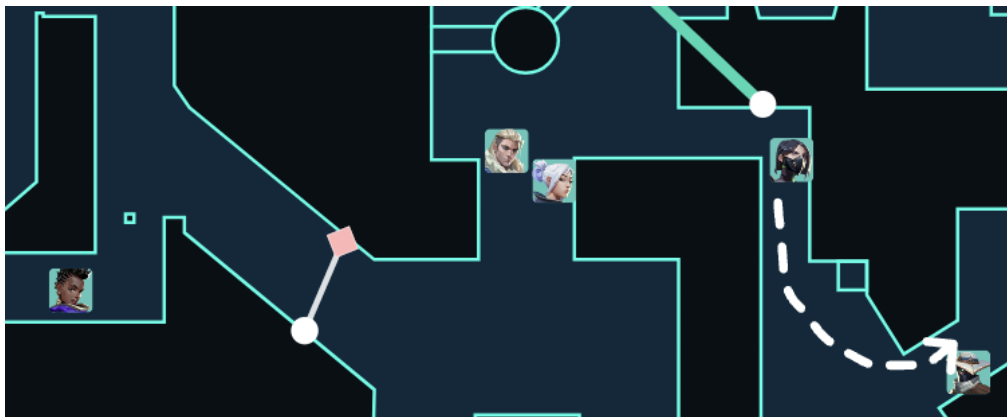

Figure 2: Attack Default positions

Viper will always join Cypher on default post wall deployment when default.

4.1.1 Pistol Round - Attack - B site Only

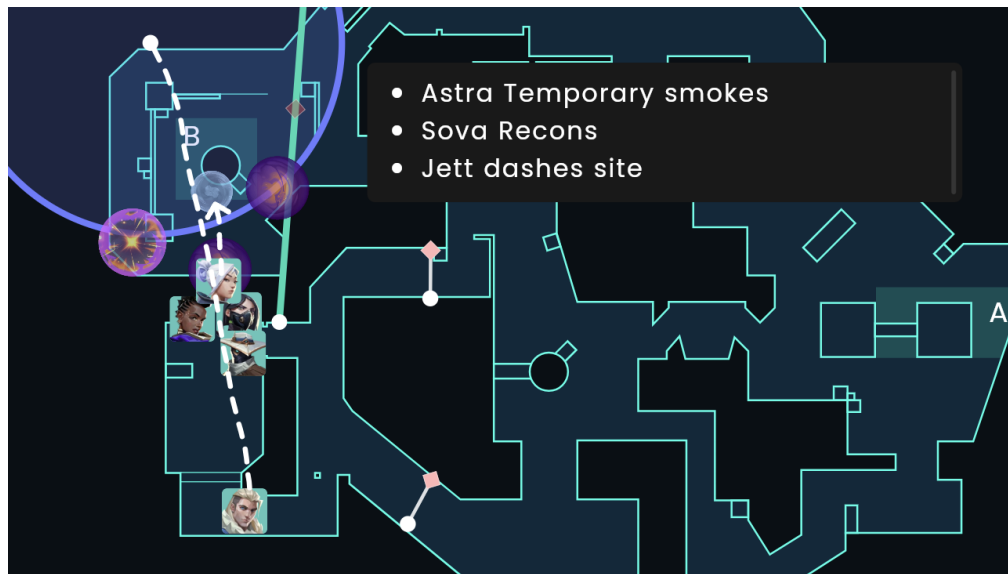

Figure 3: Pistol B - Site Execute

In pistol rounds buy:

- Full Utility for Astra, Viper & Cypher.
- Jett - 1 smoke & 1 Ghost
- Sova - 1 Ghost

Strategy:

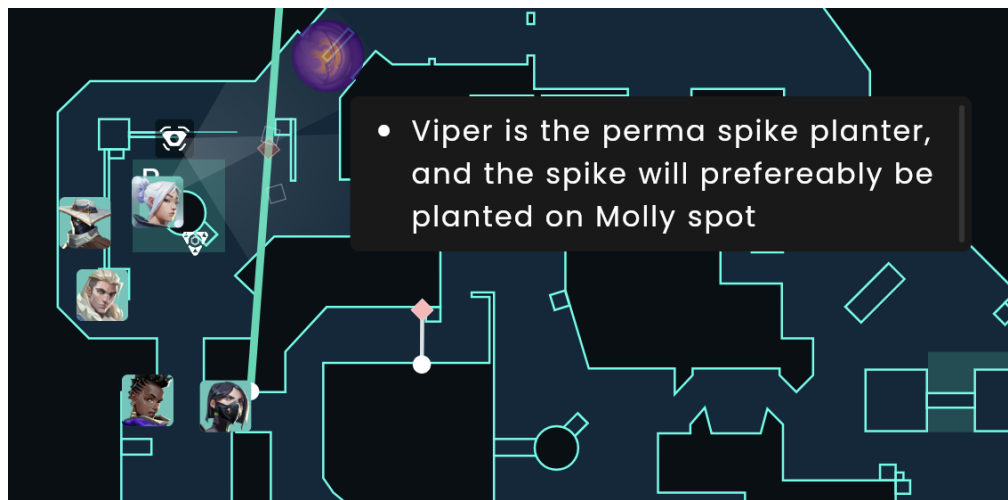

Figure 4: Pistol B - Site Execute

- Sova recons outside the B map back site for whole site.
- Astra fake smokes entry, smokes right vision, stuns left.
- Jett dashes site into her smoke
- Cypher places trips for back-stab, and for mid just after the round starts, and get in position by '1:30'.
- Clear the positions, and take the site.

- Sova joins the team immediate after the recon.
-

- Cypher places cam on backsite wall to watch mid.
- Jett has aim backsite.
- Astra & Viper fallback to main, if no back stab for post plant.

4.1.2 A1 Execute

Strategy:

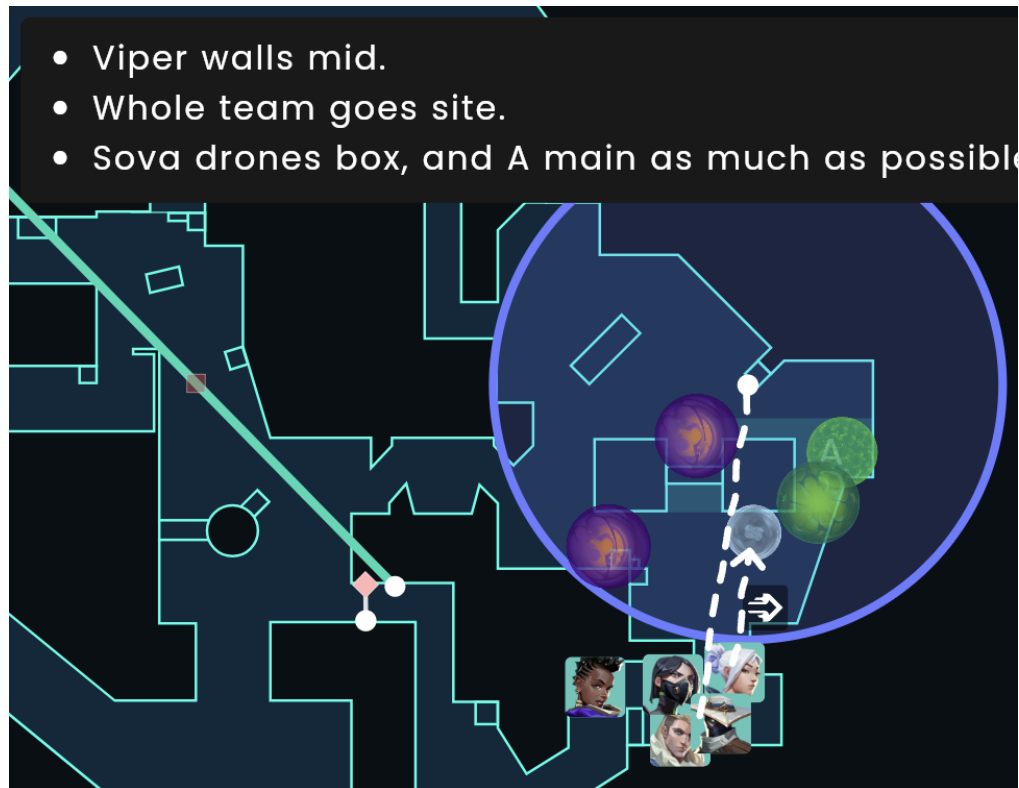

Figure 5: A1 Execute

- Sova drones A main for any close range combats, and flies drone high, for little bit of site view.
 - Viper joins back team after the wall.
-
- Sova recons back site, Astra smokes default. If someone is revealed A cubby, Viper Molly A cubby.
 - Jett dashes in site, into her smoke.
 - Jett will try to fight back site pushing smokes. Cypher pushes further towards mid smoke, with cage
 - Astra stays A main for Post-plant

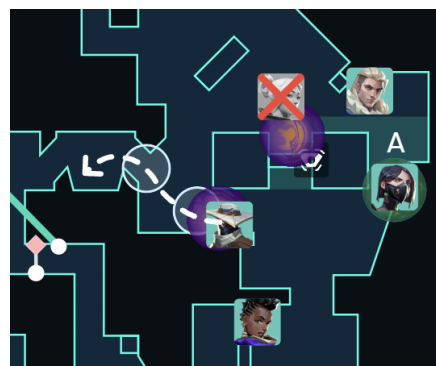

Figure 6: A1 Execute

4.1.3 A2 Execute

Strategy:

Figure 7: A2 Execute

- Viper walls up.
 - Viper, and Cypher shift walk main, while Sova shock darts 1 bounce A Link, and, Jett dashes in immediately while the wall is up.
 - Astra listens for movements in B Site, while team hits A.
-
- Sova recons back site on ground, Astra smokes all angles. Viper Molly A cubby.
 - Jett & Sova and Cypher & Viper pinch the opponent in red area, and plant.
 - Astra wraps the enemy from mid,as needed.

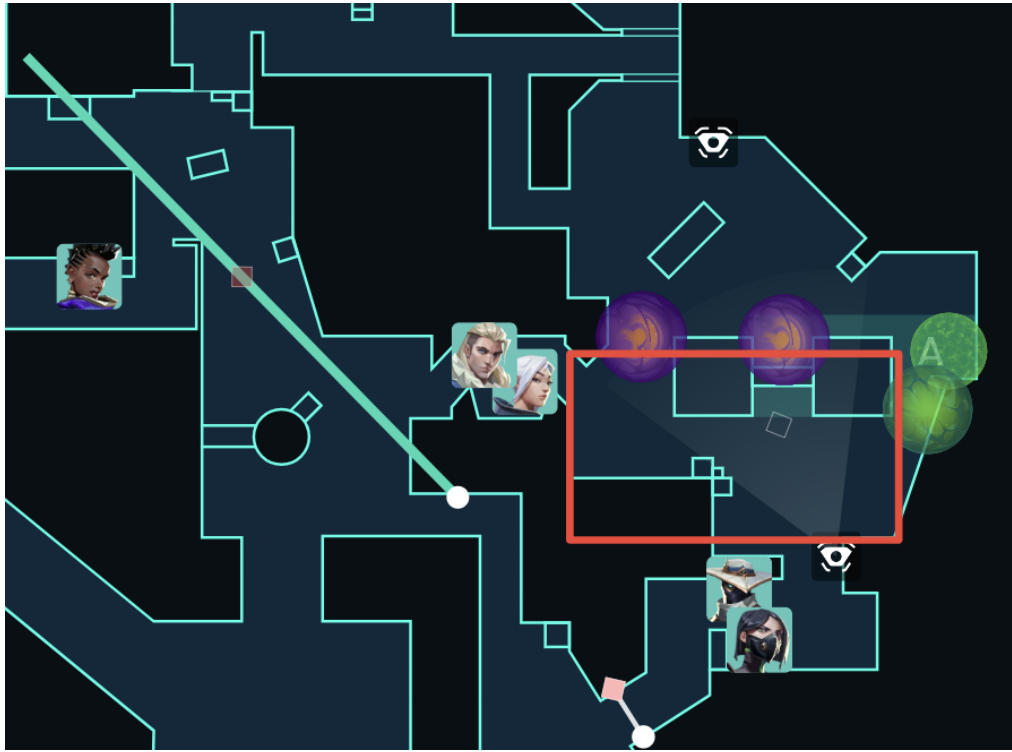

Figure 8: A2 Execute

Figure 9: A2 Execute

4.1.4 A3 Execute

Strategy:

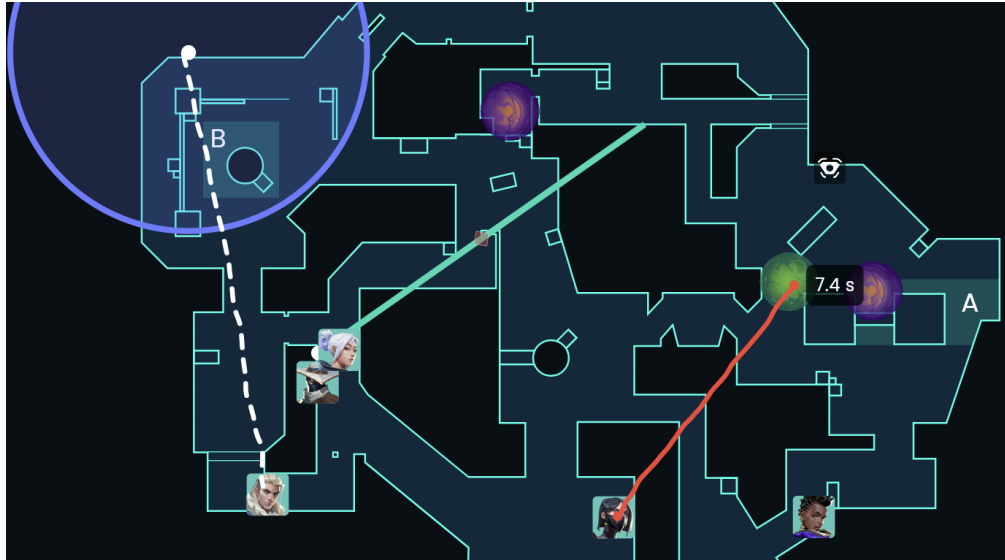

Figure 10: A3 Execute

- Viper uses the wall before round starts
 - Sova recons B site & Viper goes for the Orb Lineup to A.
 - Cypher trips B main, after the round starts.
 - Astra just stays outside A.
 - Jett & Cypher walk up to mid.
 - **Ignore Astra smoke here in the screenshot for now.**
-
- Sova starts walking back to A, from spawn while Astra smokes mid top.
 - Jett peeks site from B mid. Cypher watches mid bottom, for any pressure on Viper. Viper also tries to avoid attracting attention before Sova crosses.
 - If Jett gets a pick we switch to B based on Call, and picks.
 - Else, Viper walls up before my smokes goes away, and Cypher & Jett join Viper to hit mid link A.
-
- Sova drones A site, once everyone is mid. Viper opens the orb as soon as drone starts, and Jett dashes immediately, covered by Cypher. While, Viper holds any mid pinch.
 - As soon as drone is over, Sova shock darts A cubby, and Everyone takes site.

Figure 11: A3 Execute

Figure 12: A3 Execute

4.1.5 B1 Execute

Strategy:

- **Compulsory-** Viper deploys it's wall for the B Sit. Cypher trips A main & mid. All this be done except for mid trip before the start of the round.
- As, round begins, everyone collects B Stairs near entry, and Sova recons backside immediately.

Figure 13: B1 Execute

- **The same lineup can be done from outside Entry but there's a risk of getting Sniped.** The alternative can be this one where, Astra permanent/temporary smokes entry point. And, stuns the left corner as recon hits. Cypher instantly cams inside smoke, quick checks, and once cleared Jett dashes into the site.
- **The site entry will happen with the Viper wall.**
- **Positions of Astra, Viper, Cypher & Sova can be swapped, as needed.**

Figure 14: B1 Execute

- Once site is entered, Cypher throws a cage in area of Viper smoke. And, goes with Sova to clear left section. While Viper starts the plant after dropping the orb. As, soon as call for Viper wall going down comes, Astra will give her smokes.
- Cypher & Jett peek back site holding the smoke, while Viper holds the mid smoke. Sova can drone high to view from above the smoke.

Figure 15: B1 Execute

- As, soon as multiple players push my Smoke, Viper turns the Viper wall ON alongside the Orb to cover Jett, Cypher triggers the cage & Viper falls back to B main. And plays Post plant with Astra.

5.1 Attack Side

Basic Rules - Base Conditions:

(a) Pistol B - Site Execute

(b) Pistol B - Site Execute

Figure 18: Harbour Mid walls for Attack

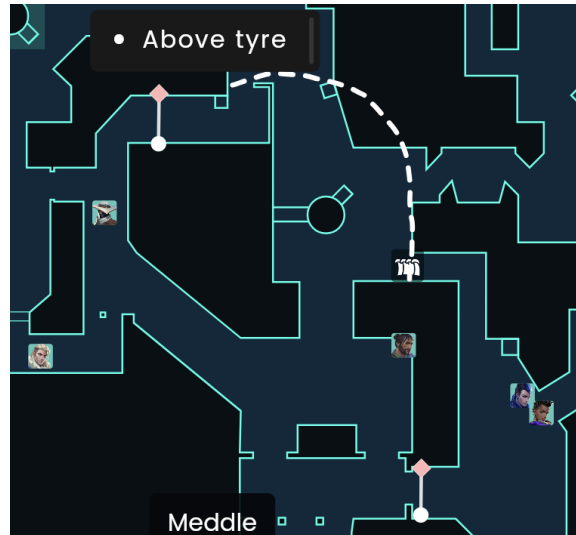

Figure 19: Attack Default positions

5.1.1 Pistol Round - Attack - B site Only

In pistol rounds buy:

- Full Utility for Astra, Harbour & Cypher.
- Yoru - 1 Flash & 1 Ghost
- Sova - 1 Ghost

Strategy:

- Harbour walls site, at the beginning of round.

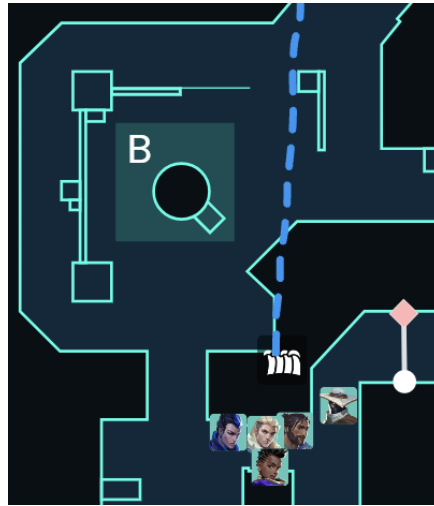

Figure 20: Pistol B - Site Execute

- Astra smokes B main. If 'B main' is already smoked as per our needs, no need to smoke it.

Figure 21: Pistol B - Site Execute

- Sova recons B site based on Lineup decided, priority B back site, and left reveal. Harbour throws Storm Sludge on left, and then Yoru flashes along with Astra Stun for site & box, and enter the site through smoke.

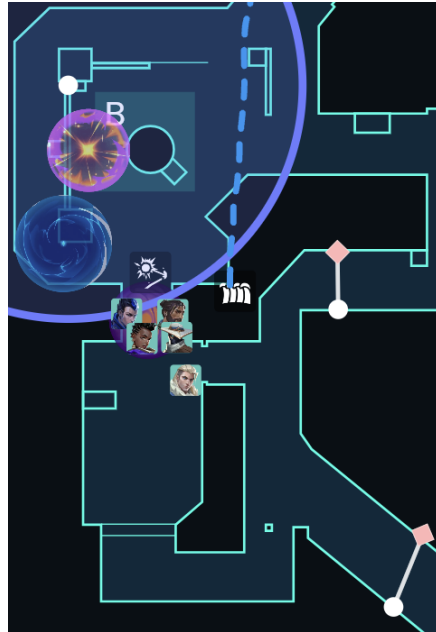

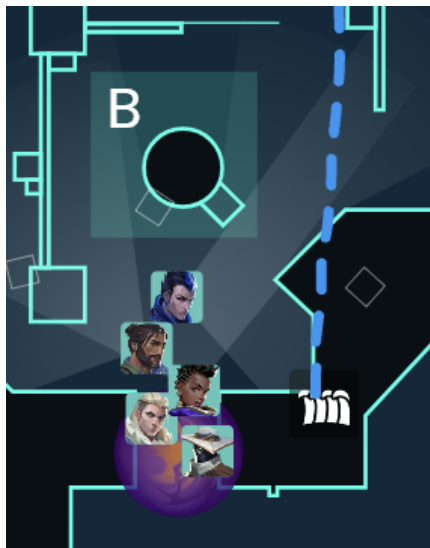

Figure 22: Pistol B - Site Execute

- Harbour & Astra go left, while Yoru, Sova & Cypher take site fights and clear before plant. Cypher places camera on the back wall of B Site.

(a) Pistol B - Site Execute

(b) Pistol B - Site Execute

Figure 23: Pistol B - Site Execute

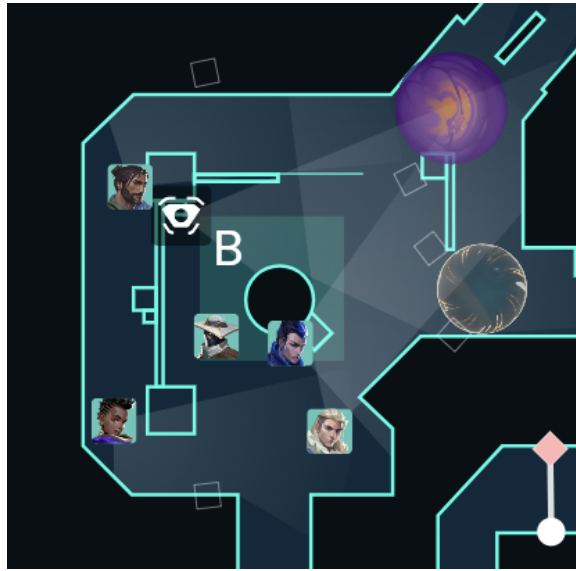

Figure 24

- Astra smokes CT. Harbour smokes B mid link.

5.1.2 A1 Execute

Strategy:

- Sova drones A Lobby/Entry for close fights, and checks for anyone in the site. Meanwhile, at the same time Harbour starts deploying the wall. Astra holds for Sova, beside Yoru to fight any push if coming.

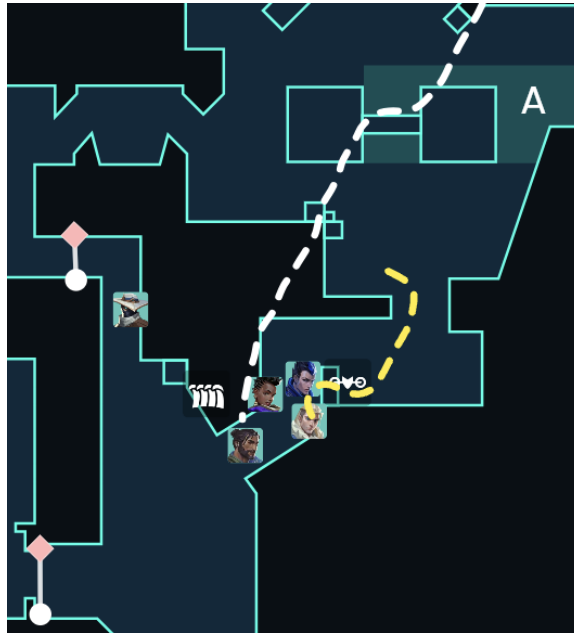

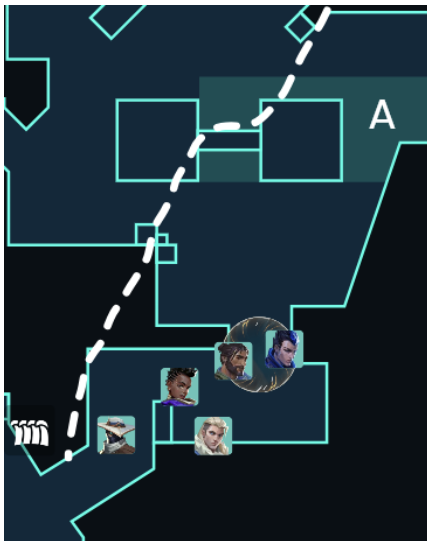

Figure 25: A1 Execute

- Team walks into A entry, takes position for the Utility. Or, if we don't want to use Harbour smoke, use Yoru flash, and a low power Sova recon to clear front site.

(a) A1 Execute

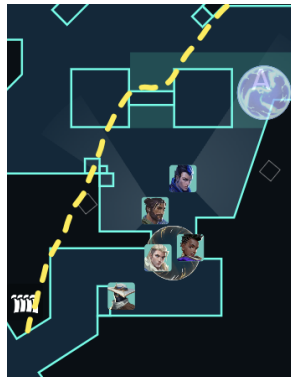

(b) The same can be done without a Harbour smoke like this where Harbour & Sova sync and use utility together.

Figure 26: A1 Execute

-

- Harbour clears left. Yoru clears right. And, the team follows. Sova while running shock darts the location where we pulled.

- Astra refreshes the smoke, stays outside site for post plant. Yoru holds off angle back site. Harbour plants the spike to farm ultimate.

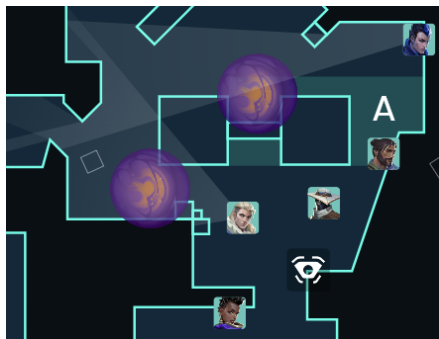

Figure 29: A1 Execute

5.1.3 A2 Execute

Strategy:

- Sova & Harbor position mid for mid control to A. Yoru, Astra & Cypher go A main, making lots of sound.

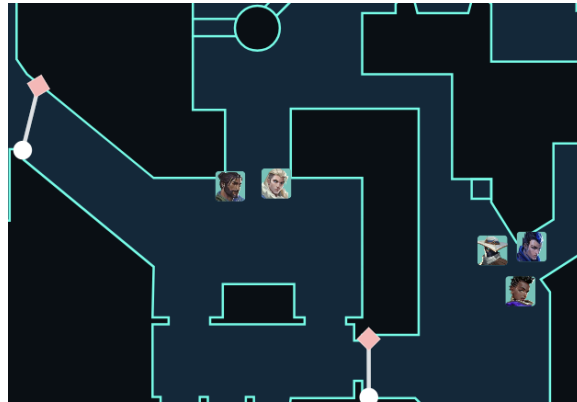

Figure 30: A2 Execute

- Harbor smokes top mid close using cove & covers sova, meanwhile sova shock darts the mid A link to scare off, or push back the defender on mid. By this time A main players check with Cypher camera.

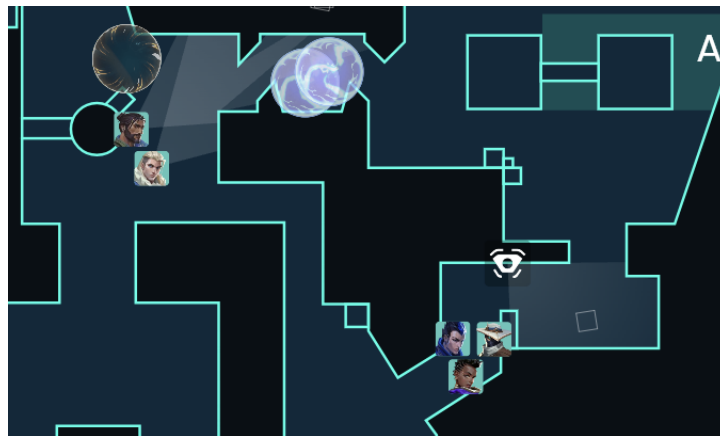

Figure 31: A2 Execute

- Than Yoru, flashes A main close to scare off the possible Operator player if any. Cypher recollects camera back for later use. Harbor, & Sova must call if they have got A mid link, if not or heavy resistance, will change the plans as needed on fly.

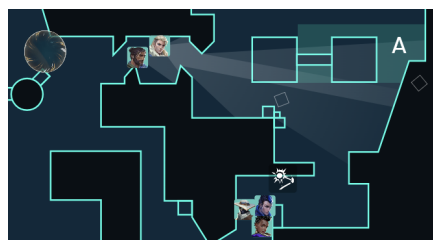

Figure 32: A2 Execute

- If the area is obtained. Harbor does the High tide wall, and calls out as it's deployed. Yoru instantly sends his teleport in the site.

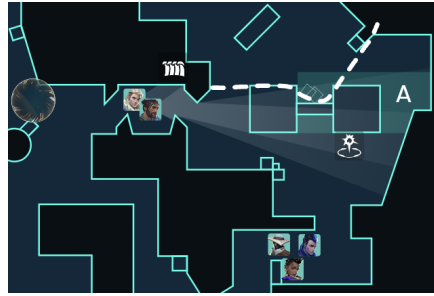

Figure 33: A2 Execute

- Once, the teleport reaches the desired position, **Yoru says the word "FLASHING"**, **Astra stuns inside the site on cubby**, **Sova recons**, **Harbor uses the Storm Sludge**, and **Yoru teleports at the spot**

Figure 34: Yoru can use his teleport if he wants to. Not compulsory.

- Harbour clears right. Yoru clears left. Astra & Cypher cover site for Yoru, and also clear left if any.

Figure 35: A2 Execute - Hard clear angles

- Everyone clears site, choke points and angles & than plant the spike.

Figure 36: A1 Execute

5.1.4 A3 Execute

Strategy:

- Sova & Harbor position mid for mid control to A. Yoru, Astra & Cypher go A main, making lots of sound.

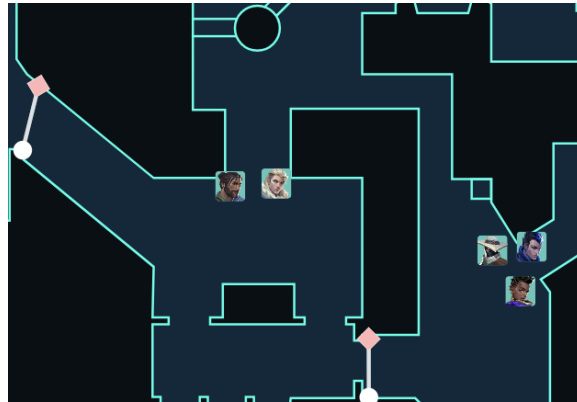

Figure 37: A2 Execute

- Harbor smokes top mid close using cove & covers sova, meanwhile sova shock darts the mid A link to scare off, or push back the defender on mid. By this time A main players check with Cypher camera.

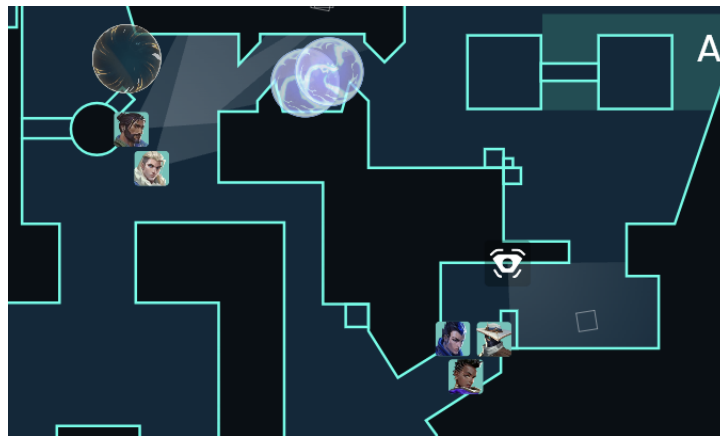

Figure 38: A2 Execute

- Than Yoru, flashes A main close to scare off the possible Operator player if any. Cypher recollects camera back for later use. Harbor, & Sova must call if they have got A mid link, if not or heavy resistance, will change the plans as needed on fly.

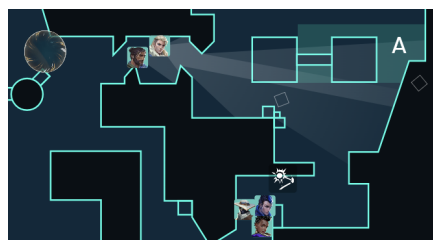

Figure 39: A2 Execute

- If the area is obtained. Harbor does the High tide wall, and calls out as it's deployed. Yoru instantly sends his teleport in the site.

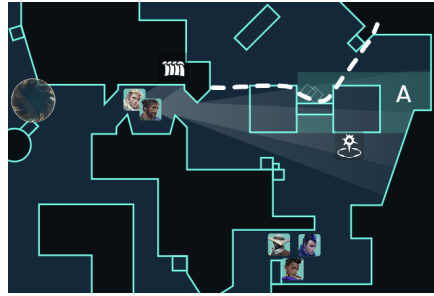

Figure 40: A2 Execute

- Once, the teleport reaches the desired position, **Yoru says the word "FLASHING"**, **Astra stuns inside the site on cubby**, **Sova recons**, **Harbor uses the Storm Sludge**, and **Yoru teleports at the spot**

Figure 41: Yoru can use his teleport if he wants to. Not compulsory.

- Harbour clears right. Yoru clears left. Astra & Cypher cover site for Yoru, and also clear left if any.

Figure 42: A2 Execute - Hard clear angles

- Everyone clears site, choke points and angles & then plant the spike.
